## Supporting Early Learning ESSENTIAL Skills

Early Childhood Essentials is a “private teaching” platform designed for the “individual” learning needs of young children from 3 to 8 years of age.

My goal is to support educators and families in creating positive, effective and quality learning engagements for young children with the tools that are needed to make that happen.

When a young child’s foundation skills are secure this will better prepare them for academic success in later years and also support a life-long love of learning.

### Benefits for your child include:

- A Qualified Early Childhood Educator
- Teaching & Learning that is in alignment with good practice in the Early Years
- A Teaching Approach that is Developmentally Appropriate & will Foster Academic Potential
- AN Inquiry Teaching Model that Engages Children in their Learning

### MY FOCUS

- English Language Acquisition
- Literacy Development
- Self-Regulation
- Listening & Speaking
- Comprehension
- Critical Thinking Skills
- Improved Attention Span
- Pressure-Free Learning Environment
- Emphasis on a positive & healthy self-image

READING & WRITING FOUNDATION SKILLS BEGIN BEFORE SCHOOL.

# How Young Children Learn

Tell Me, I Forget; Show Me, I Remember; Involve Me and I Understand!

Young children acquire a new language naturally. For them, learning a new language is not difficult. Children who learn at a young age will have better pronunciation and develop confidence within the culture of the new language. Children learn through play, this is my approach, holistic and hands-on experiences that are 'inquiry' in nature. My teaching focus is on the process rather than the end product, the journey! My lessons are engaging, motivating and fun with the goal to develop your child's proficiency, with self-confidence.

**"Children learn as they play. Most importantly, in play children learn how to LEARN."**

~ O. Fred Donaldson ~

## About Me.....

Ms. Debi Lomax Li,

is an Early Childhood Specialist & Consultant, with 45+ years of experience spanning 3 countries.

She is a qualified registered Kindergarten Principal and Teacher. Her expertise is in Kindergarten management, school leadership, parenting skills training, teacher training and working within the International Baccalaureate Primary Years Programme. Debi's previous experience includes working as a Kindergarten/Daycare Consultant for the Department of Social Services in Canada.

Her last international school placement was at a leading HK Int. IB school. For the last 10+ years, Ms. Li has been a private teacher, supporting families in achieving the learning goals of their children. She has extensive experience within the International Baccalaureate Primary Years Programme.

"Debi understands the learning needs of preschool children. She is particularly adept at igniting young students' passion for learning by helping them make the connections they need to better understand the world and their important place in it."

- Vice Principal, International School -
